Question: What did the interns learn?

Cloud/pipe/device overview
Typical Huawei cloud

Internet/IPTV/VOIP/Video
call experience

3G Network voice
service
Experience

Mobile Internet
Application
and Development Trend

FTTx VOD/IPTV
experience

Typical Huawei Device
(modern/mobile/pad)

Network Data Service
Experience

Intelligent network
application

This is what the interns say...

"I was most impressed with the kindness of people. They are very open minded, always smiling and willing to help you. Of course, the Shenzhen Huawei headquarter was amazing, as well as the facilities provided for the employees!"

Claudia Ionescu – Internship in China/ Fresh Graduate

Currently JUNIOR PROJECT ENGINEER

Faculty of Electronics, Telecommunications and Information Technology

University "Politehnica" of Bucharest

Bachelor Degree

This is what the interns say...

*"For me, Huawei is a way of evolving towards a better self: both in my career and in my life.
I would very much like to continue working for Huawei as I find it to be a huge opportunity for me."*

Florin Gabriel Abagiu – Internship in China/Fresh Graduate

Currently JUNIOR PROJECT ASSISTANT

Faculty of Power Engineering

University "Politehnica" of Bucharest

Bachelor Degree

This is what the interns say...

The internship was beneficial in many ways, it helped me grow personally and professionally. I now have a much better understanding of the 2G/3G/4G architecture, how a BTS/Node B is connected to the BSC/RNC, how LTE connects directly to the EPC, losing the RNC part in UMTS.

Sergiu Berce – Local Internship / Fresh Graduate

Currently SWAP MANAGER

Faculty of Engineering, Automatics and Applied Informatics

University “Aurel Vlaicu” of Arad

Bachelor Degree

2014 is History

ENTHUSIASM

TRUST

FRIENDSHIP

Summer of 2015 is coming!

1 Month
Internship
July - Sept

30
internships

6 Universities

Fresh
Graduate
Program

Go to China

Work on
real ongoing
projects

Practical
telecom
skills

Multicultural
Environment
