

Senior Delivery Consultant - Basware (IP & Alusta)

Matricia Solutions is a business and technology consulting organization, specializing in implementing business software solutions for public organizations and private enterprises, across a wide range of industries.

Matricia provides best-in-class content-centric solutions, such as **Enterprise Content Management, Invoice Automation** or **Purchase-to-Pay**, by partnering with market leading software companies.

We aim at becoming a long term, trusted partner for our customers, by providing them with quality software and services that would help their businesses thrive.

Matricia currently serves a 70+ customer base, in Romania and abroad: CEC Bank, UPC, Pro Credit Bank, BCR Leasing, Boromir, Leumi Bank, Certasig, Ministry of Health, Gothaer Asigurari - Reasigurari, Scandia, Farmexim, Carrefour, Metro, Electrica Furnizare, etc.

We are currently expanding our team for the Invoice Automation and Purchase-to-Pay (P2P) solutions on Basware technologies and welcome candidates for the role of SENIOR DELIVERY CONSULTANT – Basware (IP & Alusta). The local team will be dedicated to remotely delivering Basware projects for customers located in Europe, as part of an international team.

Senior Delivery Consultant - Basware (IP & Alusta)

Your field of activity

- As an experienced Delivery Consultant, you will work on projects from a wide range of industries, across all functions, in a multicultural team setup.
- You are involved in the solution implementation process, independently performing parameterization and configuration of the software, setting up interfaces to existing software environment (e.g. ERP, Archive, Purchasing), testing of end-to-end solution, as well as creating and updating the solution documentation.
- You will work on specifications delivered by the Business Analysts and deliver a UAT-ready work package to the delivery team for further customer roll-out.
- Your role requires very good technical capacities alongside a good understanding of business processes in the area of Finance/Procurement.

Your profile

- As an experienced, dynamic Delivery Consultant, you are interested in today's trends in the field of digitization and opportunities in business process outsourcing (BPO).
- You have an IT background and hold a degree in Computer Science, or you have a correspondingly strong technical affinity.

- You have relevant experience in technical project delivery in a similar function, e.g. as a technical consultant in related fields such as ERP, ECM or BPM, as well as specific knowledge of business processes in various industries.
- Ideally you have experience with e-Invoicing / Procurement / Accounts Payable processes and solutions.
- You have strong analytical skills.
- You are a quick learner with the correct hands-on attitude and self-driven challenger looking for continuous development.
- You are fluent in written and spoken English (knowledge of German would be a plus).
- Minimum 5-6 years relevant work experience is mandatory.

Your desired technical expertise

- Strong knowledge of validating, transforming, parsing and querying data from Dynamic XML files
- Knowledge of how to consume Web Services and process the responses
- Knowledge of using Regular expressions and XPATH or scripting languages (JavaScript or similar) to process xml files
- Strong knowledge of SQL querying
- Experience in debugging a SaaS software
- Experience in defining and implementing technical interfaces between different IT systems
- Experience with client/server and SaaS environments
- Understanding of different types of transfer protocols

Knowledge of Basware IP and Alusta as Invoice Automation/P2P solutions, or other similar tools, would be a great advantage!
